

FEDERAL POLICY**INVENTORY MANAGEMENT – EQUIPMENT
and SUPPLIES PURCHASED WITH FEDERAL FUNDS**

All funds awarded directly or indirectly through any federal grants or subsidy programs shall be administered in accordance with this policy and any administrative procedures adopted implementing this policy.

Equipment and supplies acquired (“property” as used in this policy) with federal funds will be used, managed and disposed of in accordance with applicable state and federal requirements. Property records and inventory systems shall be sufficiently maintained to account for and track equipment that has been acquired with federal funds. In furtherance thereof, the following minimum standards and controls shall apply to any equipment or pilferable items acquired in whole or in part under a federal award until such property is disposed in accordance with applicable laws, regulations and School Board policies:

A. “Equipment” and “Pilferable Items” defined:

For purposes of this policy, “equipment” means tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the lesser of \$5,000, or the capitalization level established by the District for financial statement purposes. “Pilferable items” are those items, regardless of cost, which may be easily lost or stolen, such as cell phones, tablets, graphing calculators, software, projectors, cameras and other video equipment, computer equipment and televisions.

B. Records:

The Business Administrator shall maintain records that include a description of the property; a serial number or other identification number; the source of the funding for the property (including the federal award identification number [FAIN]); who holds title; the acquisition date; the cost of the property; the percentage of federal participation in the project costs for the federal award under which the property was acquired; the location, use and condition of the property; and any ultimate disposition data, including the date of disposition and sale price of the property.

C. Inventory:

No less than once every two years, the Business Administrator shall cause a physical inventory of all equipment and pilferable items to be taken and the results reconciled with the property records. Except as otherwise provided in this policy, inventories shall be conducted consistent with Policy DID Fixed Assets (Inventories).

D. Control, Maintenance and Disposition:

The Superintendent shall develop administrative procedures relative to property procured in whole or in part with federal funds to:

1. prevent loss, damage or theft of the property; any loss, damage or theft must be investigated;
2. maintain the property and keep it in good condition; and
3. ensure the highest possible return through proper sales procedures, in those instances where the District is authorized to sell the property.
